

# February 2022

Doug, (with a little help from his friends) made and installed a handrail outside the front of the shed to increase the safety of all our members.

Noel brought in his model of the Sovereign of the Seas. It took him two years to complete this model. The detail is incredible. Its easy to see why it was such a long term project.

expected to have to repaint it but was delighted to find the original vibrant glaze under the old paint.

Brian has spent hours painstakingly wire brushing away a thick layer of paint off his heffalump. He

Ian was seen making his coffin. I think he may have got his measurements wrong!

David routing mahjong boards, ably supervised by Jim.

The following businesses sponsor our Shed. We request that you support them in return.

We had a visit from Maree Blackburn from the Hastings shed. Maree called for a cup of tea and stayed all morning. She was given the 'royal' treatment by Brian & Mike. Maree was struck by the cooperation and camaraderie amongst our members. Mike never misses an opportunity to promote his book.

David, wood turning. He is forever finding himself in front of the camera lens!

One of our more recently acquired pieces of kit, a metal cut off saw. Doug is using it to make the hand rail featured on page one of this journal.

**FINALLY THOSE CHICKENS HAVE FOUND A ROOST!**

Another project successfully completed. It made a pleasant change to be working outside, instead of being cooped up in the shed.

Meet the residents

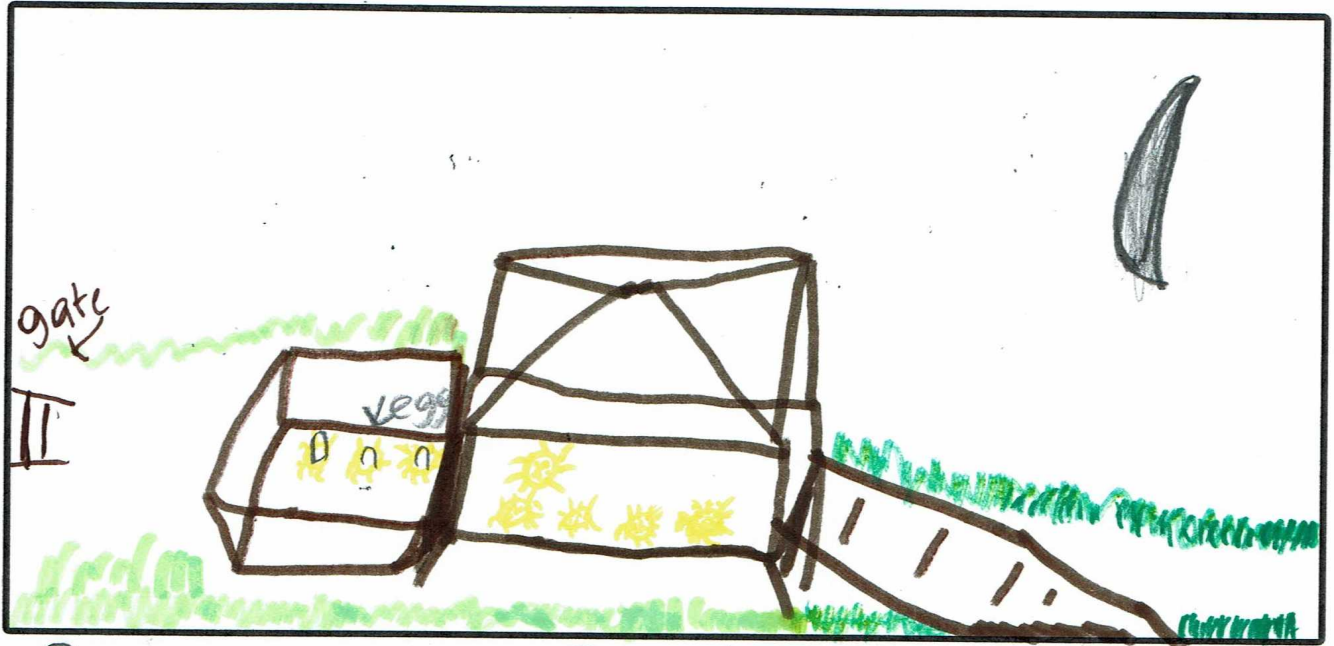

All finished

One of several messages received from children at our local Marewa school.

Thank you from Marewa School

Dear menz Shed

Thank you for making the chicken coop. The ladder is very cool that it makes me want to try it out. The chickens looks very comfy in the chicken coop. I know because miss Whyman showed the Enviro group a video of the chickens going in. And the boss lady went around to check if all the other chicken were OK!. from Lonella♥
